***Nevada Youth Empowerment Project Face Mask Project Quilt
Fabric***

In 2019 in response to the COVID 19 pandemic residents of the Nevada Youth Empowerment Project began making facemasks and providing them at no cost to community members that needed them. This quilt was made by residents with the help of volunteers with fabric scraps from masks that were made for the community. The quilt was hung in NYEP's sewing room to provide a reminder of how community service and small acts kindness can make a huge difference.
